BOOK NOW

medicine.exeter.ac.uk/cpd

Learn about the nature of epilepsy in adults and children, the disorders with which it can be confused, its investigation and treatment, its implications for mood and cognition, and the experience of patients during our one day conference organised by Professor Adam Zeman and Dr Tim Malone.

Suitable for GPs, consultants, SAS doctors and doctors in training, psychologists, nurses and midwives, allied health professionals, scientists, students, interested patients and members of the public.

CPD points applied for through the Royal College of Physicians.

TOPICS

- What is epilepsy?
- What is syncope?
- What is NEAD?
- EEG in epilepsy
- Brain imaging in epilepsy
- The patient perspective
- Role of the Epilepsy Specialist Nurse
- Epilepsy in children
- Drugs for epilepsy
- Neuropsychiatry of epilepsy

COST

GPs and consultants £120, SAS doctors and trainee doctors £90, non medics (nurses, midwives, allied health professionals, psychologists, scientists, as examples) £70, patients and members of the public £50, students £40.

10% early bird discount if delegates book before 19 February 2016
