Narrative Impact & Engaged Research Network (IERN) Workshop

Created by Ms Colette Defoe on 07 Mar 2016

The Impact and Engaged Research Network organised a workshop to bring together people interested in impact and engaged research to share best practice. This network event was open to all academic (including PGR) and Professional Services staff (research managers, administrators, project officers, events managers, etc.) who are interested in impact capture and evidence. The workshop explored: what impact looks like; how you can demonstrate impact; what constitutes good evidence; the best way of capturing impact evidence

Created by Ms Colette Defoe on 07 Mar 2016

External Contributors Claire Packman CP , IIB

Group Discussion

- What do you think constitutes good impact evidence?
- What are the challenges you face in capturing and evidencing this? Can you suggest solutions?
